

Wednesday - 12 September 1951

1. Mr. Borden, Director of the staff of the Joint Congressional Atomic Energy Committee, phoned to request clearance of the following sentence for a speech to be delivered by Senator McMahon: "Did you know that many more people work in the Soviet atomic project than the 100,000 who work in our own?" After checking with OSI, I informed Mr. Borden that we had no objection to such a statement.
